SOLUTIONS FOR AN ELECTRICAL WAY OF LIFE

JOINON is the new offer for charging all next-generation electric vehicles. A new way of understanding sustainable mobility, thanks to a smart and highly technological vision of daily life.

Much more than a simple range of products for charging electric vehicles. JOINON includes:

- Technology infrastructure
- The possibility of management
- Technical assistance and maintenance

JOINON is a hardware and components range with the addition of a platform - a solution designed for the business user.

PRODUCT RANGE

A complete range for all charging needs.

I-on and I-on Wall are GEWISS's JOINON offer for electrical charging, for both floor and wall installation.
